LIST OF PUBLICATIONS

57. Scandura, J.M. Theoretical note: S-R theory or automata? September 10, 1970. (S-R Theory or Automata, A Final Word. In *Structural Learning II*; see B-4.)
64. Ehrenpreis, W. & Scandura, J.M. Algorithmic approach to curriculum construction: A field test. *Journal of Educational Psychology*, 1974, 66, 491-498. (Also in Problem Solving; see B-6.)

70. Scandura, J.M., Durnin, J.H., & Wulfeck, W.H., II. Higher-order rule characterization of heuristics for compass and straight-edge constructions in geometry. *Artificial Intelligence*, 1974, 5, 149-183. (Also in *Problem Solving*; see B-6.)

80. Scandura, J.M., Wulfeck, W. H., II, Durnin, J. H., & Ehrenpreis, W. Diagnosis and instruction of higher-order rules for solving geometry construction problems. In 1974 Proceedings; see B-5. (Also in *Problem Solving*; see B-6.)

113. Scandura, J.M. Problem solving in schools and beyond: Transitions from the naive to the neophyte to the master. *Educational Psychologist*, 1981, 16, 139-150.

117. Scandura, J.M. Reaction to "When to use CAI in training." *Training/HRD*, 1981. (731 Hennepin Avenue, Minneapolis, MN 55403)

155. Scandura, J.M. Comments on rules and higher order knowledge as they pertain to Stahl and his information-constructivist perspective. *Journal of Structural Learning and Intelligent Systems*, 1992, 11, 247-54.

177. Scandura, J.M. Introduction to Compendium I. *Technology, Instruction, cognition & Learning (TICL)*, 2003, 1, 2, 115-117.

BOOKS AND MONOGRAPHS

MAJOR COMPUTER-BASED SYSTEMS

S-1. Critical Reading, Fall 1980 (8 disk system)
S-2. College Board Preparation, Winter 1980 (12 disk system)
S-3. Language Arts - Word Structure, Fall 1982 (8 disk system)

MicroTutor II Tutorial Series (published by Queue, Inc.):
S-4. Tutorial Arithmetic, Fall 1982 (12 disk system for addition, subtraction, multiplication, division).
S-5. EZ Author & EZ Author Plus Authoring systems, Spring 1983.
S-6. SURPAS Authoring system with "intelligent" interface, Spring 1983.
S-7. Mosaic Tutorials (over 200 titles covering areas from pre-school perceptual skills to college preparatory science and mathematics).

Software Engineering
S-10. SoftBuilder, 1999-present
S-11. AutoBuilder, 1995-present

AuthorIT and TutorIT: Highly Adaptive and Configurable (Intelligent) Tutoring Systems
S-12. AuthorIT, An authoring system for building highly adaptive and configurable tutoring systems, 2003-.
S-13. TutorIT, an general purpose tutoring system, which takes any AST knowledge representation and provides customizable tutoring, 2003-.
S-14. A rapidly expanding series of dynamically adaptive (intelligent) and configurable tutoring systems covering a broad range of content in mathematics at the elementary, middle and secondary school levels along with a critical reading workbook series and isolated samples. These tutoring systems are ready for field testing, refinement and pilot testing in authentic educational environments.
